The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the collet having a tapered inner surface with internal threads (claim 31) must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Applicant shows a collet 24 having internal threads and a tapered inner surface (figure 2). This collet is not shown used with an adapter cylinder 50. The adapter cylinder is used with a different collet 52 (figure 6). As shown in figure 7, this collet 52 has internal threads 68, but does not appear to have a tapered inner surface. No figure shows the adapter cylinder 50 used with a collet which has both internal threads and an inner taper.

The new Figure 10 does not show the interior of the collet 24.

Also note that reference numeral 76 is used for both the elastic band (figure 7) and tube (figure 8).
